

Manufacturer's Certification

A metal roofing product coated with a Valspar ENERGY STAR® Qualified Fluoron® SR or WeatherX® SR coating:

- a) Is appropriately pigmented and is specifically and primarily designed to reduce the heat gain of a dwelling unit when installed on the dwelling unit; and
- b) Meets or exceeds ENERGY STAR® program requirements for steep-slope roofs (as in effect at the time of installation),

in accordance with IRS tax credit for roofs effective through December 31, 2013. Furthermore, the roof coating is an "eligible building envelope component that qualified for the credit allowed under the law (Section 25C(g) Paragraph 2).

Declaration Statement:

Under penalties of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief the facts presented are true, correct and complete.
